AIC Watson Consultants Ltd., India
Planning & Development Services Ltd., Bangladesh**

June 1997

TABLE OF CONTENTS

1.	INFORMATION ON THE DOE REQUIREMENTS FOR OBTAINING ENVIRONMENTAL CLEARANCE	1
1.1	INTRODUCTION	1
1.2	PROCEDURE FOR ENVIRONMENTAL CLEARANCE	1
1.2.1	Categories of Industries	1
1.2.2	EIA Procedures	1
2	FERTILIZER INDUSTRY IN BANGLADESH	6
2.1	General	6
2.2	MANUFACTURING PROCESS	
2.2.1	PRODUCTION OF NITROGENOUS FERTILIZER	7
2.2.1.1	Ammonia	7
2.2.1.2	Urea	8
2.2.1.3	Ammonium sulfate	9
2.2.2	PRODUCTION OF PHOSPHATIC FERTILIZER	10
2.2.2.1	Triple Super Phosphate	10
2.2.2.2	Single Super Phosphate	11
2.3	NATURE AND CHARACTERISTICS OF POLLUTANTS AND THEIR ENVIRONMENTAL FATE	11
2.3.1	Ammoniacal Nitrogen	11
2.3.2	Nitrate Nitrogen	11
2.3.3	Urea	11
2.3.4	Fluoride	12
2.3.5	Phosphates	12
2.3.6	Oil and Grease	12
2.3.7	Fluorine	12
2.3.8	Sulfur Oxides and Sulfuric Acid Mist.	12
2.4	SOURCES OF POLLUTION	12
2.4.1	Ammonia Plant	13
2.4.2	Urea Plant	13
2.4.3	Ammonium Sulfate Plant	14
2.4.4	Sulfuric Acid Plant	14

2.4.5	TSP and SSP Plants	14
2.4.6	Cooling Water	15

3 LOCATION CRITERIA 16

3.1 LIKELY INPLANT POLLUTION PREVENTION MEASURES 18

3.1.1 Nitrogenous Fertilizer Plant 18

3.1.2 Phosphatic Fertilizer Plant 19

3.1.3 Cooling Water 19

4 EFFLUENT TREATMENT PLANT OPTIONS 20

4.1 Nitrogenous Fertilizer 20

4.2 Phosphatic Fertilizer 21

4.3 Cooling Water 21

5 STANDARDS 22
